

## Irene Doub To Work In Formosa As Fiber Technology Consultant

Mrs. Irene Doub, an employee of the fiber laboratory since 1957, of the U. S. Department of Agriculture, is shown at her work as fiber technician. She is leaving for Taiwan (Formosa) China, June 25, as a Fiber Technology Consultant for the International Cooperation Administration.

Mrs. Doub will go to Washington, D. C. for two days prior to departure for Taiwan, where she will conduct a month-long training course in long vegetable testing.

Experts in the fields of fiber testing are hard to find. During the visit to the United States last year, Dr. Ching-Yuang Chi, Director of the Taiwan Fiber Crops Experiment Station here, and was so impressed with the laboratory, that upon his return home, he instigated plans to have a laboratory like it installed at their experiment station. This lab was completed several months ago.

Dr. Chi wrote to Mr. D. W. Fisher, leader Cordage Fibers Investigations, requesting a consultant to teach their people the process of fiber testing; the result being Mrs. Doub's invitation to Taiwan.

Mrs. Doub has worked for the State of Florida for six years, and for the USDA four years, making a total of ten years as fiber technician at the Everglades Experiment Station. Under the general direction of Mr. Fisher, she has been in charge of the local swimming team with Clewiston at the Municipal Pool on June 16th, with each member participating in one or more events.

Clewiston's powerful team walked away from ours, but the Belle Glade team accepted in good spirit the lesson that "it takes real sportsmanship to be a good loser."

The next meet will be at Clewiston on July 3rd at 7 p. m.

"Newspapers are like women. They both have forms; back numbers are not in demand; they always have the last word; they are all workshopping over; they have a good deal of influence; you can't believe all they say; there's small ad space for the bold faced type, and every man should have one of his own and not borrow his neighbor's!"

## Four Human Beings - One Tractor

### "Monumental Propaganda Blunder" Says Smathers

"A tyrant's rationale demands, adds, 'it preceded the group formed by Walter Reuther, Mrs. Roosevelt and Dr. Blawie, the Organization of American States to bring about his down fall.' Senator George Smathers says in an open statement to the organization of American States that he has written him in 'large volume' about the 'Latin Robin Hood' and 'admitted as such by many people of South America.'"

Describing the act as "a monumental propaganda blunder by Fidel Castro," the Senator says, "it is not as how the prestige, honor or dignity of the United States can be damaged if this response comes from the private citizens of this entire hemisphere."

"This was the type of propaganda I endorsed after a trip to Cuba called my office to explain that they were organizing a fund-raising drive throughout the hemisphere." He

Small Fire At Hospital  
No Damage Reported

Saturday morning about eleven a call from the hospital brought the fire department, and a police car to the scene in double quick time, with a goodly number of volunteers trailing.

A misplaced stove had fallen down on to a pipe which stays hot in the laundry room, and had caught fire.

The department's truck with a portable "put-but-er" removed the trouble immediately with no damage reported.

Lebron Williams  
Chamber Director

At its regular meeting Tuesday night Lebron Williams, undersecretary, was elected to the position of Director of the local Chamber to fill the position resigned by P. E. Benson Weeks.

Weeks resigned when he was elected Exalted Ruler of the local Elks Club.

Brokers Bonds Upped  
By Com. Doyle Conner

Commissioner of Agriculture proposes to raise the maximum amount of bond required of available brokers from \$10,000 to \$20,000, according to an announcement by his office.

He points out that the increased maximum is needed because of inflationary prices and bad experience with inadequate bonds during the past year.

He gives several examples where farmers have had to accept compromise settlements with shabby and fruits sold by some brokers because of inadequate bonds.

Double commissions are a violation according to a recent tightening of the law and six months is the limit for filing claims.

## Hurricane Preparedness Conference In Miami Friday With Weather Boys

Friday morning at 8:30 a. m. the Miami Public Library, at No. 1 Biscayne Boulevard, Mr. Gordon Dunn, assisted by two specialists will outline the plans and prospects of the warning service how it operates, and discuss activities concerning the weather.

Technical and information concerning Donna, capricious child of the south Atlantic on a well-advanced visit to these United States last year.

The Red Cross, Coast Guard, telephone and electrical utility folks, as well as television, radio and newspaper groups will be represented.

There will be an open forum at which some SPADES will be "called" undoubtedly concerning the Weather Bureau's proclivity towards less and less information as the storm's path veers from Flagler and Collins Avenues in the Miami area.

Technical and administrative regulations have been given as the cause of actions which "seem to indicate" these proclivities according to the Weather Bureau.

This office had on its desk 38 hours before the storm hit communities west of Belle Glade, a map designating very closely

the path of the storm actually took. It did not come from the Weather Bureau but from information in the hands of the Bureau but not produced prognostically.

"These 'talks across the table' undoubtedly will produce more understanding of problems of South Florida communities and a mutually agreeable working arrangement, because the Weather Bureau indicates a willingness to cooperate."

An efficient and efficient local organization of the Red Cross will be discussed in THE HERALD in future issues - it's here and ready to function now.

"Wheel" Gene Lang  
Succumbs To Shooting

Described by oldtimers here as the "wheel" in various activities, Gene Lang is reported to have died Tuesday night in Pine Ridge Hospital as a result of being shot in the mouth by his wife.

According to witnesses interviewed at the time of the shooting, Lang and his wife had some disagreement and when he advanced towards her she "pulled" him with a shot from her pistol. She claims now that the shot was accidental, according to reports, but nevertheless it was fatal.

Among other activities Lang is remembered as a witness in the case made against the County's former prosecutor concerning gambling payoffs, particularly at "The Ditch."

Taylor Farm Home in Belle Glade has charge of funeral arrangements and definite plans will be announced later.

Lions Ladies Nite  
Friday At Royal PB

The Belle Glade Lions will entertain their ladies at a dinner at the Inn Royal Palm Beach on SR 80 Friday night. Dinner will be served at 7:30 followed by dancing and other entertainment.

South Bay insists On Late Bar Closing  
Asks For County-wide Referendum Vote

At a specially called meeting Tuesday voted to ask for a county-wide referendum instead of a Glades community vote on late bar closing hours, as was proposed in a joint meeting between Pahokee, Belle Glade and South Bay commissions Monday night.

The Monday night meeting was asked by Belle Glade in order to iron out differences of opinion between South Bay, Pahokee and Belle Glade as to exact hours of closing. It was decided at that time to prepare a resolution asking a Glades expression of opinion of voters on the question, and the resolution was being prepared.

In a letter to Commissioner Rardin, the South Bay Commission says:

"The Council decided that it would participate only in an election if it was to be held County wide, because a three town election would still discriminate and divide at 20 Mile Bend. We are not in favor of a division of this kind."

Also, due to slack business conditions in South Bay, due to a general recession in traffic trade of Highway 27, as well as other kinds of trade, we feel it is unfair to the people of our Community to vote separately this community of 20 Mile Bend."

Back in '52 and '53 an agreement was reportedly reached between the three communities about closing of retail liquor selling outlets at night and on Sunday. Until application was made by an establishment out-

side of the city limits for per-existing between the immediate mission to stay open late hours, contrary to Belle Glade's practice, did the question come up for a referendum in the Glades is still undecided. The County Commission is now faced with settling a question with differences of opinion ideas.

Chances and those who would eliminate drinking anytime, any time take whatever opportunity they THINK aids their mission.

For totally opposite reasons, unmixable thinking leads to the same effort.

Somewhere twixt total prevention and unregulated indulgence comes temperance or abstinence.

The official and legal funeral of one monster has produced a capillated destroyer of morals, integrity and our American Way of Life earlier in this century with prohibition!

Certainly the Glades can more ably handle this public enemy than our State Department demonstrated in handling Castro!

Wanna Swim?

If you're 4 To 104, Come On!

To qualify age-wise you must be 4 to 14, with slight variations, to not to exceed four years, to Saturdays.

Join the swimming classes at the Municipal Pool.

Harry McDonald is instituting swimmers classes on June 26, and for the duration of the either, in his beginners classes.

**Uncle Dan From Democrat River**  
Dear Mister Editor:  
I been sorter down in the dumps here lately about the world situation, but I was reading a article last night that settled my nerves more'n anything I've seen in a long time.  
A expert from the Department of Agriculture says the answer to peace in the world hinges on food and not weapons and that in the end the United States can't lose.  
He had figgers to show that the food situation is very bad in Russia and China. The farmers ain't producing enough to feed the people and they is even predicting a famine in China come this winter. They can't get no help from Russia on account of the slave labor farms in Russia has been a failure. This fellow says old Khrushchev is as mad as a hornet but can't do nothing about it.  
The article says a careful survey shows it takes six Russian farmers to grow as much food as one American farmer. In China it takes seven and one-half farmers to do the same job. On the other hand, this fellow shows that we'll have no problem feeding the 30,000,000 more people predicted for this Country in 1975. He gives the figgers to show that it'll take only 10 percent increase in livestock feeding efficiency but no more pasture land. He says our food surplus today would feed the extra 50,000,000, even if it didn't have no improvements in methods of crop growing.  
This fellow from the Agriculture Department, who the editor of the magazine calls the "leading expert farm economist" in the business, says the exploding population increase in China and Russia don't give them two countries but two choices in the very near future. They can get out of the arms race or starve to death. He says the missile race is already beginning to tell on Russia.  
Maybe, Mister Editor, after old Khrushchev gets through pounding his shoe on barn doors around the country, he'll be willing to set down at the Summit and talk sense. One thing is for shore, he ain't going to bury us, as he said, with his country full of empty stomachs.  
Along them same lines, I see where a official Communist paper has announced that great blessings has come to the common man in that country. A pound of processed meat has been reduced in their money from \$12.80 a pound to \$8.20. According to official figgers, their average wages is \$10.00 a month. They couldn't buy no processed meat afore the cut and they still can't buy none. Same difference, I'd say.  
Yours truly,  
Uncle Dan

**The Surgeon Today**

Surgical treatment of disease can be traced back through the earliest historical records, but modern surgery dates largely from the first use of ether as an anesthetic scarcely more than 100 years ago, when Morton demonstrated its effectiveness in 1846 at Massachusetts General Hospital. Advances in surgery have been particularly remarkable in the last few decades.

According to the U. S. National Health Survey, about 6,500,000 operations were performed in hospitals in this country during a 12-month period in 1957-58, and about four out of every 100 Americans had such an operation. Furthermore, about 40 per cent of all days in general hospitals were for the care of surgical patients.

In the handling of this growing caseload, heavy demands fall on the surgeon to keep abreast of new knowledge and to apply it effectively. Heart surgery, transplanting of organs from eye and bone banks, and similar procedures are dramatic examples of the intricacy of some modern-day procedures, but the safety and effectiveness of all surgical treatment have greatly increased. This is perhaps best illustrated by the amazing survivorship among the wounded of World War II and the Korean War;

moreover, there has been much progress since then.

Surgical advances are directly related not only to new medical knowledge but to the long and arduous training presently necessary before a physician becomes a surgical specialist. This bulletin gives some facts about surgeons and their patients compiled from a carefully drawn (though small) sample. These facts clearly indicate the progress that has been made in professional specialization. For example, more than two-fifths of all surgery today is performed by board-certified specialists - physicians who have had at least seven years of training and practice beyond college and medical school.

Most of the boards that certify and standardize such training were established less than 30 years ago. In their early years they certified limited numbers of physicians. But now a very large proportion of all surgery - and undoubtedly most complicated surgery - is performed by physicians with extensive training and experience.

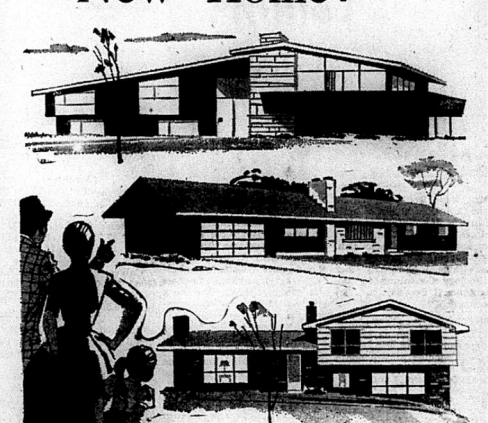

George Bugbee, President Health Information Foundation

**100 Years Have Past Since . . .**  
INTO WESTERN VIRGINIA  
By Lon K. Savage  
Major General George Brinton McClellan advanced from Ohio into Western Virginia 100 years ago this week amid the cheers of Unionists in both states.  
McClellan, 34-year-old commander of the department of the Ohio, had watched and waited for a favorable opportunity for the move. In early June, when his troops had defeated a Confederate force at Philippi, he had stayed in Ohio to organize his department and to visit strategic points (among them: Cairo, Ill., at the confluence of the Mississippi and Ohio Rivers). But in mid-June, northern Western Virginians met at Wheeling and began the process of taking that part of Virginia out of the Confederacy and back into the Union.  
That was enough. Leaving Cincinnati, McClellan and his staff headed east, meeting, he wrote his wife, "a continual ovation all along the road." At every station, he wrote, he was greeted by "gray-headed old men and women, mothers holding up their children to take my hands, girls, boys, all sorts, cheering and crying. God bless you!"  
They reached Marietta, on the Ohio River, before daylight June 21 and immediately crossed by boat to Parkersburg. With 48 hours, McClellan was setting up headquarters and enjoying the mountain air at Grafton.  
There, McClellan issued two of his typically flowery proclamations, one to the people of the area and the other to his troops. "Soldiers!", he wrote in the latter, "I have heard that there was danger here. I have come to place myself at your head and to share it with you. I fear now but one thing - that you will not find me worthy of your steel . . ."  
Meanwhile, the convention at Wheeling also took important steps. On June 19, it passed an ordinance reorganizing the state of Virginia, and next day, Francis H. Pierpont was appointed governor of the re-organized state. A July 1 meeting of the state legislature was called - to be made up of the men who had been elected to represent the area at Richmond. This done, the convention adjourned until August.  
Confederates in the area were active, too. On that same June 19, four companies of Tennessee volunteers waded waist-deep across the Potomac near Romney, 120 miles east of Wheeling - and attacked a small Union detachment, sending the northerners fleeing in all directions and capturing two pieces of artillery. Across the mountains in the Shenandoah Valley, Thomas J. Jackson, the Confederate brigadier general, destroyed a number of railroad cars and bridges on the Baltimore and Ohio Railroad. And at Beverly, only a short distance from McClellan's Grafton headquarters, newly-arrived Confederates

**ANOTHER BIG REASON BEHIND THE BIG BOOM IN FORD SALES:**

**Galaxie styling is inspiring more admiration (and imitation) than any other car on the road!**

This is Galaxie styling - inspired by the fabulous Thunderbird! Many cars have tried to copy the incomparably beautiful 1961 Galaxie. No car has succeeded.  
And styling is only part of Galaxie's distinction. This is the car that's beautifully built to take care of itself. The '61 Ford got 30,000 miles between chassis lubrications - .4,000 miles between oil changes. It's automatic.  
Wouldn't it make sense to STOP spending money on an old car that can never do for you what a new Ford can do?  
SWAP right now while your Ford Dealer's sales are booming - and the swapping is easier than it's ever been before.  
SAVE with the car that makes saving a pleasure.  
Today is the day to STOP...SWAP...SAVE

## FROM SOUTH BAY AND BEAN CITY

Reported by Effie Allen. To report happenings from these two communities call WY 6-2426 no later than Monday morning.

Mr. and Mrs. T. L. Driggers had as guests during the week end their son-in-law and daughter, Mr. and Mrs. Jim Beagle of Miami and Mrs. Driggers's sister and brother-in-law, Mr. and Mrs. Frank Land of Ft. Myers. Mrs. Edna Walker who has been convalescing for several months at the home of her daughter and son-in-law, Mr. and Mrs. James Andrews, Jr., in Hialeah, is able to be back at her home in South Bay. Mr. and Mrs. Chester DeCarlo and Lisa of Hialeah drove Mrs. Walker home Saturday and spent the weekend.

Mrs. D. N. Partain and recent house guests, Mr. and Mrs. George Luttrell and Miss Jane Robertson of Rockmart, Georgia also Miss Joan Moon of Atlanta, enjoyed a picnic Thursday at Lake Worth Beach.

Mrs. Jimmy Grantham and daughter, Susan, also Mrs. Maude Hartline of Delray Beach spent the weekend with Mrs. Hartline's son and family. The Hartlines, Mr. and Mrs. Hartline, have been confined to his home for three weeks with the mumps.

Mrs. W. R. Jeffries and sons, Bill and Bob of North Palm Beach spent Friday with Mr. and Mrs. W. M. Jeffries and Sunday their son W. R. Jeffries was a dinner guest.

Mr. and Mrs. Bob Boyer of Lake Placid were Saturday guests of their son and daughter-in-law, Mr. and Mrs. Sam Boyer.

W. C. Allen left Saturday night from West Palm Beach by Eastern Airlines for Chicago, Ill., to visit his daughter, Miss Jane Allen.

Mrs. Ruby Lamb and daughter, Debbie are visiting her sister, Mrs. John Cooper at Milligan.

Mr. and Mrs. Henry Eilers, Fredrick also Miss Gail, Juliette and Warren are on a two weeks vacation at Pitts, Ga., with Mr. McKinley's parent, Mr. and Mrs. J. N. McKinley. They are also visiting relatives at Tallahassee and Rev. and Mrs. L. C. Woolridge at Plant City and Rev. and Mrs. John Cooper at Milligan.

Mr. and Mrs. W. K. Kelly, Jr., Brenda and Kenny, were weekend guests of Mr. and Mrs. Herman Kautz and family of Pahokee at their summer cottage at Salerno.

Mrs. Wynell Champion is convalescing at her home in South Bay after a major operation at Everglades Memorial Hospital, Pahokee.

Mr. and Mrs. Burton Martin and Warren are on a two weeks vacation at Everglades Memorial Hospital, Pahokee.

Mr. and Mrs. H. E. Crawford family, Helen, Beverly, Kenneth and Dennis are on two weeks vacation with Mrs. Crawford's father, J. W. Shelton at Thomasville, Ga.

James H. Kersey left Monday for Fort Dix, New Jersey after spending 14 days leave with his parents, Mr. and Mrs. Cecil Kersey of South Bay. He will embark Saturday for Germany with his division.

W. R. Sullivan and son, Ray, presented a talk about bees, bringing out little known facts and highlights of bee raising, followed by a film entitled "Story of the Bees," and an informative question and answer period.

# Honey Of A Program

## Dessert For The Everglades USDA Club

Florida rates 3rd highest in the production of honey in the U. S., producing 19,390,000 lbs. last year with an income of \$3,740,000.00 plus \$150,000.00 for wax. Jack himself has about 65 hives on his property at the present time, thereby contributing to this figure.

Honey and the use of it appears on records as far back as 3800 B.C., so it is not exactly the newest thing on the table. Many new uses, however, are being discovered through research every day. Not only is it a food with high nutritional value and great medicinal uses, but it is used in the manufacture of medicines, vinegars and wine. Beeswax is used by nurseries for grafting, and in the manufacture of car polishes, floor wax and candles.

While honey and beeswax are commonly known as products of the bees, their greatest contribution to mankind is through the self and cross-pollination of fruits and vegetables. Pollination can be controlled with bees to their seed nature, which makes them highly useful to the small or large crop growers.

They are sold by the pound, a pound consisting of from \$3.00 to \$6.00, depending on their race. The state of Ohio alone, has over 21 million acres of crops pollinated by bees.

Another point of interest is the word "honeymoon." Many years ago, when a couple was married, they celebrated from "moon to moon" and the wine served was made from honey. The word "honeymoon" is derived from the fact that a long-tailed cat in a room full of palm trees, which the club members and guest (the largest gathering yet), were considerably better informed than these various creatures and left the meeting with a pleasant taste (literally, for he gave us all a jar of his latest palm tree honey), and pleasant memory of this seasons meetings.

Two new members were introduced to the club by Dr. E. H. Todd and Mr. B. A. Belcher. They are Mr. Tom Turner, Bill Stucky, who will be working at the Canal Point Sugar cane station. Guests attending were Fred Forster and Bill Burr, who are working with the Agricultural Engineering Research Division for the summer.

Paul Thayer, Pathologist, Everglades Experiment Station, Mrs. Betty Torres, Laboratory Technician, also from the Experiment station.

Dr. F. D. Wilson was unable to attend he was home baby-sitting, since a new addition, a baby girl, was welcomed to the Wilson family on June 6. Congratulations were also in order with a happy birthday song for Dr. T. E. Summers.

Regular members attending were: B. A. Belcher, Virgil Bracker, Tom Bregger, M. H. Byrom, Irene Doup, P. H. Duncanson, D. W. J. Gifford, Carolyn Glover, C. O. Grassl, V. E. Green, J. F. Joyner, J. Little, Dr. Maxson, Dorothy O'Neal, E. R. Rice, T. E. Summers, E. H. Todd, Donald Waddell, H. Whittemore, and Otto Richey. C. Glover, Publicity Chairman.

In a recent year Florida produced 244,800 tons of water-melons.

Dr. of South Bay Rainbow Girls are in Jacksonville at Grand Assembly, Gail Mason will sing in Rainbow choir. Other members are Daphny Henderson, Karen Yazad and Gladys Dalrymple.

Mr. and Mrs. T. C. Collins spent Sunday at the Bazaar International, in West Palm Beach.

Mrs. H. C. Willis of South Bay and Mrs. Alice Mutchler of West Palm Beach have returned to their homes after spending two weeks in Jacksonville, with Mr. and Mrs. Edward Forbes.

Doe Spence, Ninth District Commander and his installing team, and Mrs. Dora Spence, Ninth District President and installing team installed officers of South Bay American Legion Post 161 and its Auxiliary Friday night at 8 p. m. at the American Legion Home in South Bay.

New officers of Legion installed were Mayor Buck Cobb, Commander; Chief of Police, Marvin Davis, first vice-commander; Morris Serrett, second vice-commander; W. C. (Pappy) Allen, finance officer and adjutant; Clifford Allen, Chaplain; Eric Hartline, historian; R. O. Plank, Sgt. at Arms; Jimmy Spradley, Assistant Sgt. at Arms; Sam Henderson, Service officer. Auxiliary officers seated were Mrs. Ida Vee Walker, president; Mrs. Vernon Henderson, first-vice president; Mrs. Mamie Henderson, second vice president; Miss Lou Ann Austin, secephalpin; Mrs. Betty Hartline, treasurer; Mrs. George Brown, historian; Mrs. Effie Allen, Sgt. at Arms; Mrs. Margie Henderson, assistant Sgt. at Arms. Bow Austin and Jimmy Spradley fried the fish for the installation.

Tribute Given Little League The American Legion Post 161 paid tribute to the Little League baseball players, with a fish fry and the presentation of the American Legion Trophy, to the league champions, South Bay.

Out going Commander Boe Austin, made the presentation to the winning manager, Benny Yates, as the crowd of visiting dignitaries looked on.

## Tuesday Nighters

No. 6 Capt. Tommy Priest won first place with 1875 pins; 2nd 1's Bell - Donna Luce 1814. Joe Leavitt rolled a 213 game and 570 set for high and Bill Robinson came in second with a 203 game. Tim Bass second high set, 495. Glenda Browne rolled a high game 201 and high set 493. Dolly Hand was second with 200-443.

Lester Rhady rolled the highest game ever rolled in League held last Thursday night with a 289. He is on the Elks team in the Summer Sawgrass League. He rolled in 10 straight strikes, and on the next ball knocked down 9 pins and then picked up the spare. The highest scorer until then was Bud Little with a 278.

# John Randolph

## Receives Degree

John W. Randolph, son of the late John W. Randolph and Mrs. Randolph, received his Doctor of Medicine degree from the University of Miami School of Medicine at graduation exercises, June 12. He will intern at Orange Memorial Hospital in Orlando, Fla. The Randolph family formerly lived at Everglades Experiment Station.

# Garden Club Enjoys Luncheon-Swim Party

Members of the Belle Glade Garden held its last meeting of the year until fall, with a sandwich luncheon at the home of Mrs. J. A. Speyer.

A brief business meeting was conducted and plans were outlined for the coming year.

The ladies then proceeded to have a swim party in the pool on the grounds of the Aspee home.

Guests present were Miss Margaret West and Mrs. Otto Belcher of Pahokee.

## DOWPON controls catfalls and problem grasses along ditches

A regular spraying program with DOWPON\* puts an end to the continual expense and hard work of burning, chopping or catfalls out of ditches. In headlands and along fences, too. DOWPON eliminates grass-for it kills the deep roots as well as tops. Through cumulative action it keeps the grass from coming back less costly each year. You'll find DOWPON cheaper than chlorates or borates, less messy than oiling. Simply mix DOWPON with water, and spray.

# Belle Glade Junior-Senior High Schools

(Editor's Note: The reports of this two score of authorities comprising the Committee, we believe, should be a matter of concern to all parents. We will present them each week until each subject is covered.)

## PROGRAM OF STUDIES VISITING COMMITTEE REPORT

Curriculum study as a continuous aspect of staff activity is evident in Belle Glade Junior-Senior High School. Sincerity of purpose and depth of thinking are reflected in the decisions that have been made and in the further studies that are envisioned by professional and lay persons affiliated with this school. In a period when pressures are being made to adopt patterns of school organization which are of questionable merit, Belle Glade school persons are proceeding on a solid foundation - demanding that any adjustments in the school be in keeping with values regarded as basic to this society. A successful program of studies is in operation at Belle Glade Junior-Senior High School. Needed revisions are recognized and have been suggested in the self-evaluation. The staff is commended for its sensitivity to curriculum needs, and for a comprehensive analysis of the program.

The visiting committee endorses recommendations made by the self-evaluation committee and urges that appropriate steps be taken to facilitate a realization of the proposed changes.

Shut off that  
furnace  
in your  
attic!

On a hot summer day, heat in your attic can build up to as much as 140°! Unless your attic is insulated, this terrific heat seeps down into your living quarters until long after midnight. Bedrooms become hot-ovens; your spouse's rest in a few hours' sleep time, you can shut off that overhead furnace. Simply insulate your attic with

**NEW Gold Bond  
TWIN INSULATION**

Reflective foil/aluminum surface on all four sides of the rock wool blanket turns back 90% of the heat radiated downward from your roof in summer. Your whole house, including your bedrooms, is cooler, more comfortable. And in winter, Gold Bond Twin insulation keeps furnace heat inside; saves up to 25% of your heating bill! Tell us the size of your attic. Then we can tell you how little it costs to have the savings and year round comfort of Gold Bond Twin insulation in your home. We'll show you samples, give you simple application directions, too. Stop in Saturday - or sooner if convenient.

## DOWPON controls cattails and problem grasses along ditches

A regular spraying program with DOWPON puts an end to continual expense and hard work of beating, chopping or cultivating Johnson or Bermuda grass out of crop lands and cattails out of ditches. In headlands and along fence lines, too, DOWPON eliminates grass-for-a-kick the deep roots as well as tops. Through cumulative action, this program becomes less costly each year. You'll then have a clearer ditch or stream or forest, less money in churning. Simply mix DOWPON with water, and spray.

Belle Glade, Florida

ation to which the individual attaches significance. Through observations, conversations with teachers, discussions with students, and meeting with parents it has been consistently suggested that greater pupil involvement in the instructional process is needed. This committee encourages re-examination of instructional techniques being used to ascertain the extent to which students are actively involved in the learning process, and how consistently the material studied is of significance to the learners. In certain classes, pupil-teacher planning is resulting in an analysis of problems vital to students and the analysis is shared to their special competencies and interests. In other classes it appears that talking teaching is the dominant procedure. Some study is needed to evaluate the effectiveness of the methods employed.

2. The staff is actively participating in curriculum study having numerous surveys in progress. 3. Re-examination of grouping for instruction is in progress. 4. A special program for seventh grade students having particular developmental problems is in progress and is being constantly evaluated. 5. Junior College courses have been added to extend the value of the school program. 6. Study of needs in adult education is in progress. 7. Addition of a second foreign language is planned. 8. New equipment and curriculum materials for science have been identified and requested.

14. An exceptionally excellent attitude is apparent among the staff. 15. Teachers and counselors are fulfilling the guidance function admirably. Students express satisfaction with the availability and sincerity of staff members for counseling sessions regarding academic and personal problems.

16. The visiting committee recognizes in excellent work being done in the high school mathematics program. It appears that the needs of a majority of the youth are being met with the subjects offered.

Recommendation of the Visiting Committee

1. A priority consideration is the involvement of students in the learning situations. It is often emphasized that learning occurs in any

department to more adequately serve the interests of students. It is recommended that consideration be given to the following additions to the music curriculum.

(a) A junior or beginners chorus to meet on a regular daily schedule. (b) A course in Music Appreciation to bring to the student, skill, taste and discrimination in listening to students who are not enrolled in the band and chorus classes. This could be a follow-up to the work offered in high school students in the General Music course, but geared to the more mature interests of the senior high school students.

(c) A course entitled Introduction to Music Theory to provide important preparatory training for students who may aspire to major in music in college.

In order to implement these classes it would be necessary to increase the present faculty time at this school from the present 1 1/2 to 2 full time teachers. This recommendation has been made by the faculty committee and concurred in by the visiting committee.

7. Exploration of the possibility of vocational training programs in home economics is recommended. Such an addition might be a valuable curriculum addition and could be a means of acquiring an additional teacher.

8. To strengthen and support efforts of the mathematics department it is recommended that: (a) Coordination be developed within the mathematics department to provide (grades seven through twelve) in order to restrict unnecessary overlapping of subjects matter. (b) Re-examine textbooks possibilities for increasing use of audio - visual and library resources.

(c) Consideration be given to formation of a mathematics club for students indicating a special interest in mathematics. This is especially recommended for the general mathematics classes in grades, eight, and nine.

9. Continued study of the splendid program for special seventh grade students. This program, designed for students having special developmental problems, represents a promising plan for providing educational opportunities to a particular type of student. The visiting committee recommends a continued study of the plan giving consideration to a possible adjustment toward an objective of retention rather than termination in education. Success of this program will result in a salvaging of students who would have ended formal education.

10. In view of the changing nature of the community, the committee recommends further study of offerings of a vocational nature, and an examination of the feasibility of providing the adult education program.

11. A thorough study of science offerings in the junior senior high school is recommended to develop an articulated plan for grades 7 through 12.

12. It appears that the ninth grade science program should be re-examined to determine if it should include a basic study of the physical and earth sciences. Attention to the inclusion of classical physics is recommended. Because classical physics is not offered at the high school level, some provision for certain mechanics seems to be needed.

13. Complete re-examination of the social studies curriculum is recommended in order to better equate social studies offerings to the school philosophy and objectives.

14. A seventh grade study of civics is recommended. 15. At the ninth grade level an elective social studies course is suggested to replace civics.

16. The visiting committee recommends that present social studies requirements be retained, and that a course entitled "Contemporary Problems" be included in the program of studies in addition in American History.

17. Continued study of methods of grouping for instruction is urged, with special emphasis on the validity and utility for the present grouping plans being used in this school.

18. The planned appreciation course for grades 7 and 8 appears to have special merits. Further study and adoption of such an exploratory program is recommended, with particular emphasis placed on the exploratory nature of the proposal.

19. Re-examination and extension of instructional opportunities possible through use of community resources is strongly recommended in all subject areas.

20. Study of the present study hall plan appears necessary. It is possible that this represents an overly limited learning situation.

21. Continued study of the plans for addition of a second foreign language is recommended, giving particular attention to what will represent a valid selection in terms of representing an overtly limited learning situation.

22. A further study of junior high school curriculum is suggested. The visiting committee strongly urges a thorough analysis of the feasibility of re-adopting a two period block of time, fusing social studies and English, as an important part of the seventh and eighth grade curriculum.

Committee:

Mrs. Patricia Curry

Mr. Robert Shannon, Chairman

When Florida schools dismissed classes for the summer it turned loose in every nook and corner of the state a million pleasure seeking kids who are bent on "living it up" between now and next Labor Day.

"Instead of being more or less concentrated around schools, the kids will be all over the country side like a swarm of happy butterflies and we've got to watch out for them," declared Florida Highway Patrol Commander, H. K. Kirkman.

"They will be too busy having fun to watch out for you, so while you're behind the wheel - no matter where you're driving - watch out for them."

"Recall when you were a kid and try to remember some of your careless attitudes and actions and it will help you understand why they won't have a worry in the world on their minds, especially not about traffic," Kirkman said.

He re-emphasized the need for people to join in the national drive to Slow Down and Live This Summer and said: "It will mean increased safety for every one at the same time when there are more autos and more pedestrian on our street and highways."

Farmers in Florida had the third largest highest average farm income, \$5,794 last year, among all states.

## Top Trophy Awards Winners Of Golden Rams Team

Davis made all Conference in his senior year and was awarded the Crichfield Trophy as outstanding lineman, the Scarborough Award as the most valuable player, and outstanding athlete award. He also received the outstanding basketball award and held the disk record for the school track team. Davis has had 28 offers from various colleges and has received a four-year full scholarship to the University of Wichita in Kansas. On August 5 he will play in the All Star North-South game at Gainesville. He was selected among 30 to play on the South Team.

A 2 year letterman, Throop presented the Cox Trophy for his splendid performance in his senior year as offensive half-back and was recently presented the Trophy he is holding by the Palm Beach Post-Times which read "Palm Beach Post-Times Unsung Hero Award."

1960 Clarence Throop, Offensive Halfback, Throop was given this trophy as one of the most outstanding players with the least recognition for his efforts.

Throop who really did a fine job as offensive and defensive

Photo by Everett

**SUNG AND UNSUNG HEROES of the Golden Rams Football Team.** 1960 are Duich D. via l-r, alternate Captain and outstanding lineman, and Clarence Throop, offensive half-back, with their Coach Jim Maylor. The boys are holding some of their trophies.

halfback was the only player on the Suncoast Conference to record of three in the Suncoast return an intercepted pass for a touchdown, going 70 yards. In the closing game of the season with the score tied and five seconds left, Throop kicked a 15 yard field goal to win the game.

Throop also had three letters in baseball and two in basketball. He will attend Florida Christian College in the fall.

## Girls State Delegates Attend Workshop Prior To Leaving On Friday

Miss Gail Masonic and Miss Gloria Smith, Delegates chosen from Belle Glade High School for Girl State, sponsored by the American Legion Auxiliary Unit 20, and Miss Jennie Austin sponsored as delegate from South Bay by Unit 161 met recently for an indoctrination and workshop at Delray Beach American Legion Headquarters on June 21.

About 21 girls from various cities were present. The local girls were accompanied by Miss Wayne Kitchman last year's Girl State president. Miss Mildred Lutz, resident of Post 20 American Legion Auxiliary, and Miss Winnie Plank, of Post 161 Auxiliary, South Bay.

21. Continued study of the plans for addition of a second foreign language is recommended, giving particular attention to what will represent a valid selection in terms of representing an overtly limited learning situation.

22. A further study of junior high school curriculum is suggested. The visiting committee strongly urges a thorough analysis of the feasibility of re-adopting a two period block of time, fusing social studies and English, as an important part of the seventh and eighth grade curriculum.

## "Summer Teens" Has Big Turnout

The first night of the "Summer Teens" program got off to a fine start with approximately forty teens taking part in the various activities available. A snack bar was set up and apparently seemed to be that little extra that has been needed.

The time last week was the South Sea Islands. The decor consisted of bamboo tropical plants and flowers. Leis were given to several teens to wear about their necks.

Next week it is hoped that the amplifier will be installed so there will be music throughout the building. There will of course be another theme to be carried out in the decorations and plenty of fun for all.

Remember, it's the "Summer Teens" every Thursday night 8 p. m. to 11 p. m. in Jameson Hall.

Those enjoying the picnic were Peggy Carlton, Mary Mathewson, Joyce Cato, Nola Thomas, Joann Bearden, Josephine Crouch, and Miss Goodwin, RN and their sponsor.

## Future Nurse Club Plans Beach-Skating Party

The members of the Future Nurse Club are planning a beach and roller skating party for the afternoon of June 26. Those planning to attend please meet at the County Health Dept. Bldg. at 1:15 p. m. or in G-I Casco before 4 p. m.

The officers of the club met for a picnic on the afternoon of June 12. The group discussed business including plans for initiation of new members and installation of officers for next year.

Those enjoying the picnic were Peggy Carlton, Mary Mathewson, Joyce Cato, Nola Thomas, Joann Bearden, Josephine Crouch, and Miss Goodwin, RN and their sponsor.

## Lake Shore High Graduates 43

The graduating class of Lake Shore High School started their commencement exercises at 4:00 o'clock p. m. Sunday afternoon with the Reverend J. L. Scipio, Pastor of the Ascension Chapel, Presbyterian Church, Ft. Lauderdale, Florida, charging the class in the Annual Baccalaureate Sermon to complete more than "one day's journey" which they have come thus far. On Monday evening, June 12, 1961, at 8:00 o'clock, during the graduation exercises, the class of '61 presented a series of orations taken from the theme: "Educational Principles and Life." Johnnie Mae Rivers gave the welcome address and introduction to the program as well as the finale. The seven cardinal principles of education were presented in this order: "Health" Margaret Powell; "Command of the Fundamentals" Willie Louise Smith; "Worthy Home Membership" Mary L. Lawson; "Vocational Efficiency" John F. Foster; "Citizenship" Robert Haynes; "Leisure Time" Geraldine Colbert; "Ethical Character" Leasa B. Holloway.

Mr. Charles M. McCurdy presented forty-three seniors to Mr. Milton O. Carpenter, Member of the Board, who in turn presented them with diplomas. Mr. S. L. Teague, President of Lake Shore P. T. A., presented a graduate with "The American Creed."

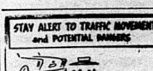

Johnnie Mae Rivers received a scholarship to the University of Kansas through the interest and effort of the Reverend John Griggs, Minister to Migrants at the Osceola Missionary Center, where James W. George received a Grant-in-Aid Scholarship to Bethune-Cookman College at Daytona Beach.

Rivers graduated with highest honors, and Geraldine Colbert, Robert Haynes, Leasa Holloway, and Mary L. Lawson graduated with honors.
